WILSON BEGINS DRIVE FOR THE CONSUMMATION OF THE LEAGUE OF NATIONS BEFORE END OF THE WEEK

Paris, Feb. 3.—President Wilson today began his drive for consummation of the league of nations program before the end of the week.

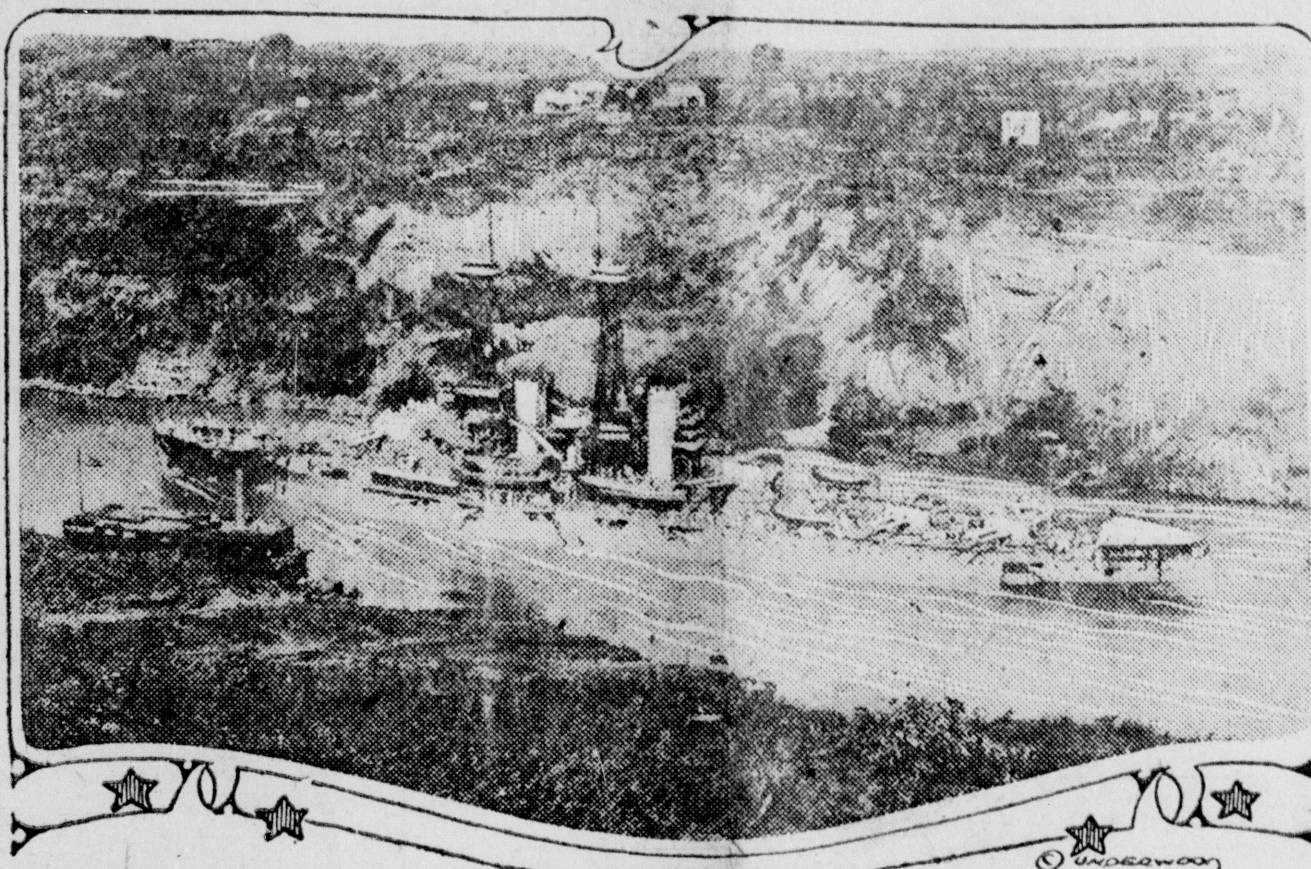

Refreshed by a day of complete rest, the President, following his address on the subject of the league before the chamber of deputies this afternoon, was to confer with the special committee which is working on details of the league's outline. In this meeting, to be held at the Hotel Crillon, work was to be taken up on definite constitution of the league, upon which several tentative agreements have already been reached.

The President is working in the closest unanimity with Lord Cecil and General Smuts on the draft for the constitution, which provides for a permanent organization, to meet regularly and to have machinery for arbitration and economic punishments. Complete agreement on the frame work is generally anticipated before Premier Lloyd George leaves for London at the end of the week.

President Wilson met with the "peace bureau" this morning. The Balkan situation was discussed, with particular reference to Greece's political and territorial claims. Premier Venizelos was the principal speaker. The President has under consideration plans for reporting progress of the peace conference regularly to congress in the future. Reports from the United States indicate there is need of explaining the details of various problems being worked out, as a misunderstanding is obvious. The tone of congressional debates is liable to result in misapprehension by the other delegates here.

When Wilson arrives in the United States three weeks hence—he is scheduled to sail Feb. 14—he expects sufficient progress to have been made for a comprehensive report to congress. After that important negotiations will be reported to the American legislative body as they transpire. Col. House is recovering rapidly and expects to take a full part in the peace work this week.

CANAL VALUABLE AID IN SHIFTING U. S. NAVAL FORCES

U. S. S. "North Dakota" passing through the Culebra cut in the Panama canal.

This photo is one of the first taken along the Panama canal since the war started. The canal was heavily guarded during the

war to prevent any activities by German or other foreign agents. It was of great value to the U. S. in shifting the naval fighting

forces about, the battleships using the short-cut between the Atlantic and Pacific in joining the different squadrons.

JOHN GUILDAY WINS FAME AS ATHLETE

John W. Guilday, basketball star of former days on Xenia High School's quint, has been winning fame for himself in the popular indoor sport at the University of Cincinnati this season.

A picture of the local boy in his basketball regalia, was published in a recent issue of the Cincinnati Enquirer with a complimentary description under the photo. Several Queen City papers have paid glowing tributes to the local lad whose basketball prowess is well thought of around Warren Woods. Guilday is a find for the Cincinnati school, this being his first appearance on the court, and Cincinnati dope writers are advertising him as having a world of speed and endurance. According to the "mouirer" the local lad is one of the best players that has ever donned a Cincinnati uniform.

Mr. Guilday is a civil engineering student at the Queen City University.

ULTIMATUM IS ISSUED BY RAILWAY DIRECTOR

By Raymond Clapper.

Washington, Feb. 3.—Government railroad control must be extended for at least three years or be shelved at once.

That is the ultimatum laid down today by Walker D. Hines, director general of railroads. He proposed a three year extension period as a compromise because of bitter opposition in congress to the recent five year recommendation of William G. McAdoo.

In any event Hines declared to the senate interstate commerce committee today, the present twenty-one months' control should be extended. Hines came out frankly against government ownership but earnestly appealed for adoption of a five year test period.

"The three-year extension would give opportunity for legislation immediately following instead of immediately preceding the presidential election."

"But," he added, "I believe the five year extension would be much better because it would give added stability."

Hines, realizing that this plan faces widespread opposition among both parties in congress, argued from every possible angle for its adoption. "Unless a reasonable extension shall be granted it will be contrary to the public interest to hold the railroads for the full 21 months," Hines declared.

"We had better terminate the control and go back promptly to the old system or we should extend the control long enough to admit of an adequate opportunity to adopt a radical and new system which will really bring about a permanent solution." Unofficial reports at the railroad administration are that unless congress votes an extension, a proclamation will be issued in March, turning the roads back about June 30.

BERT BLAIR BUYS KENNEDY TRANSFER

Bert Blair has purchased the Kennedy Transfer, from James Vest, who has been operating it for some time, and will enter actively in the transfer field.

Mr. Blair took charge of the business Monday, having bought the entire equipment of the Kennedy concern. He will maintain the barn and yards on West Second street, that have always been used. Mr. Vest has not decided what he will do.

OH, JOY THE COOTIES ARE DISAPPEARING

The chief cause for joy in the life of Sergeant John C. Wright, who is now with the army of occupation in Germany, is that he is sleeping in a real bed with sheets, and is getting rid of the "cooties."

Sergeant Wright in a letter to his parents, Deputy Probate Judge and Mrs. S. C. Wright, says that his company, the Forty-seventh Company, Sixth Marines, is quartered in a large convent on top of a hill, where a fine view of the surrounding country is obtained. They have sheets on their beds and steam heated rooms, and the "cooties" are disappearing.

KILLS WIFE'S LOVER WITH PICK HANDLE

Oil City, Pa., Feb. 3.—Joe Scavell entered his home this morning and finding a boarder, Tony Spinelli, in the room with Mrs. Scavell, beat him to death with a pick handle. His wife was also badly beaten with the same weapon and is not expected to live. The murderer escaped.

BAKER TO BE PRESENT

Washington, Feb. 3.—Secretary of War Baker left here for New York today to attend a dinner in honor of Captain Eddie Rickenbacker, American ace.

FESS URGED TO GET INTO CAMPAIGN FOR HOUSE SPEAKERSHIP

Washington, Feb. 3.—Representative Simon Fess, of Yellow Springs, Ohio, is expected to announce his candidacy for speakership of the house within a day or two. Dr. Fess is being advised by some of his friends that his indecision is having a bad effect inasmuch as some members who would support him if they knew he was a candidate, are committing themselves to Representative Gillett of Massachusetts.

Members of the Indiana delegation, for instance, are telling him that as long as he occupies a purely negative and noncommittal attitude they cannot support him.

The Indiana delegation met yesterday and decided it would not support Representative Mann and would "stick together" as a unit, but the delegation declined to go on record in favor of any candidate at this time.

BOTH CLAIM TO BE VICTORIOUS

Madrid, Feb. 3.—Both Monarchists and Republicans claimed victories in dispatches received here from various Portuguese sources today. An official statement issued by the Republican government in Lisbon said the monarchist fled after a nine hour fight near Agueza, in which they sustained great losses including their commander. The statement also denied Royalist claims of the capture of Aveiro and Chaves.

A monarchist wireless statement said Royalist troops were advancing southward and that a monarchy had been proclaimed throughout the country.

CORDON OF PICKETS FORMED BY STRIKERS

New York, Feb. 3.—Striking garment workers today threw a cordon of pickets around the clothing factory area in downtown Manhattan and greeted with cries of "scab" non-union employees on their way to work.

Strong forces of police were called out to preserve order. Several automobile loads of strikebreakers went through the cordon, with policemen standing on the running boards. Most of the pickets and most of the strikebreakers were women. Several pickets were arrested after a rough and tumble struggle with a number of non-unionists.

CAMPAIGN AGAINST ANTI-TRUST LAWS IS BEING ORGANIZED

Washington, Feb. 3.—Big business interests have under way a campaign against anti-trust legislation it was learned today.

After study of peace time problems facing large concerns, the United States chamber of commerce has put to a vote of its members recommendations by its sub-committee. These are:

Reconsideration of all anti-trust laws.

Formulation of standards of business conduct to be administered by the federal trade commission.

This commission to have nine instead of five members.

PLANS MADE TO CRUSH REVOLT OF THE SPARTACANS

Berlin, Feb. 3.—The German government was preparing today to crush the Spartacan revolt in Bremen by the greatest concentration of troops since the recent uprising in Berlin. The Spartacans were reported to be preparing for a stubborn defense of Bremen, protecting all strategic points with machine guns.

After putting down the Bremen revolt the government intends to send the troops against Hamburg and Wilhelmshaven where the Spartacans are still active. An official estimate was made today that the damage resulting from the Spartacan uprising in Berlin totalled \$10,000,000.

German railway workers in Cologne were reported to be threatening a strike against the entente's order for a ten hour day. They want shorter hours.

OVER 25,000 SILK MILL WORKERS STRIKE

Paterson, N. J., Feb. 3.—More than 25,000 silk mill workers went on strike here today, according to unofficial estimates, following refusal of the employers to meet demands for a forty-seven hour week. It is believed thousands of others will follow the example of those already out, as the mill owners may close the plants rather than grant the demands.

The strikers' original request was for a 44-hour week, but they decided to arbitrate with the employers and an agreement was reached on the 47 hour weekly basis. Employers today refused to permit any workers to enter the plants at 7:30 a. m., the usual starting time being 7 o'clock. The mill owners intend to bring the case to the war labor board for action, but the strikers declare they will not arbitrate the question of a 47 hour week.

ONE MUST PREVAIL OVER THE OTHER

London, Feb. 3.—"The suggestion that the North Russians meet with the Bolsheviks is impracticable; one of us must prevail over the other," declared President Tchekovsky of the North Russian republic, in an interview today. He is en route to Paris to confer with other anti-Bolshevik leaders.

DENIES THE RUMOR

Washington, Feb. 3.—The war department repeated today its denial that it is auctioning off passenger cars. No cars are available for sale, it was said.

CARPENTIER NOT AFTER JESS' SCALP

Paris, Feb. 3.—Georges Carpentier, French heavyweight champion, effectively put the quietus on talk of matching him with Jess Willard when he declared today that he can make enough money without fighting a man of Willard's size. He said he had no negotiations with Tex Rickard regarding a fight with Jess.

POLICE BELIEVE THEY HAVE MYSTERY NEARLY SOLVED

Washington, Feb. 3.—Police believed today they were close to solution of the mysterious murder of Dr. Wong and two associates of the Chinese educational mission.

Z. S. Wan, the Chinese student brought back from New York had been quizzed thoroughly and it was believed that he had helped toward unravelling the facts.

Financial matters appear to be a cause of the killing.

Dr. Wong had the disposition of Boxer indemnity funds used in educating Chinese youths in this country. It is believed the murderer or murderers planned to get at this money.

DRAG LAKE FOR PERSONS DROWNED WHILE SKATING

Jackson, Mich., Feb. 3.—Police were today dragging a lake four miles from here for the bodies of two men and a girl, who with two others were drowned while skating.

Two bodies were recovered shortly after the five skated into the open water. They were identified as Leon Watts and Miss Mary C. Probert. Those missing as Ralph Watts, Miss Lucille Adams and Percy Richardson. All resided in Jackson or vicinity.

FORMER PASTOR OF FRIENDS CHURCH CALLED BY DEATH

Friends here have received the sad news of the death of Rev. George C. Levering, former pastor of the Friends Church in this city, who passed away in a hospital at Greensborough, North Carolina, a week ago last Sunday. Death was due to kidney trouble.

Rev. Levering was pastor of the Friends church about five years ago for a period covering a year and one half. During that time he was chairman of the 1915 Greene county dry campaign. While here Rev. Levering was pastor of both the Friends churches, here and in Selma and made his home here, but he was later called to take charge of the Selma church alone. From there he went to Greensboro, N. C., where he had since been.

Rev. Levering had been in ill health for some time and had been given a year's leave of absence from his charge, and went into the mountains with his brother. His health was not regained and he returned to Greensboro and died in the hospital there ten days afterward. He is survived by his wife and four children. Burial was made at Guilford College, N. C.

UNANIMOUSLY PASS BILL

Berlin, Feb. 3.—The Statute of German Austria has unanimously passed a bill providing unification of that country with Germany, it was announced today.

GENERAL CROWDER WILL BE RE-NAMED JUDGE ADVOCATE

Washington, Feb. 3.—Major General Enoch Crowder will be reappointed army judge advocate general. Indications that he was to be shelved were dissipated today when it was learned on good authority that President Wilson will again name him for the post.

Crowder's friends were doubtful as to his reappointment until today. Some of them claimed that he would automatically go out of the service if not reappointed before Feb. 15. They feared that what amounted to bad blood between him and Chief of Staff March would operate to sidetrack him.

They declared privately that many obstacles had been put in the way of the man, who made the draft machine an admitted success. They claimed too that a reprimand from the Chief of Staff still lay against Crowder's record. Whether or not this is true the war department has refused to allow his record to be made public.

Secretary of War Baker and Chief of Staff March have consistently declined to discuss the report while Crowder's friends have accused Baker privately of failing to act to clean his record after promising to do so.

However, President Wilson does not intend to let any army politics or ends stand in the way it was said today. He will rename Crowder chief of the army legal department.

While the situation surrounding the judge advocate general has been chiefly one involving military politics there have been some democrats in congress who oppose him, claiming he had built up a personal machine while acting as draft leader. They feared he intended to use his machine for republican political purposes.

ARMENIAN FUND IS STILL \$2,500 SHORT OF GOAL

Although the Armenian and Syrian Relief Campaign officially closed the workers in Greene county are still at work. The county fund is still \$2,500 short of the goal and some very energetic work will be necessary to put the county across. Xenia city is falling down badly less than \$1,000 of its quota of \$2,700 having been raised up to Saturday evening.

Several of the townships have done splendid work while in others the workers have thus far fallen far short of the amount of money they should raise. An effort is being made to stir up the delinquent townships together with the city of Xenia and it is hoped that the county quota may yet be put across.

All persons who have agreed to assist in this campaign are hereby called upon by the committee to do everything possible to bring the county quota up to the mark. In Xenia city the workers are especially appealed to. Xenia should raise \$2,100 and it can do so easily if the campaign workers will see that every person in the city is solicited. Past experience has proven that very few persons will voluntarily subscribe, but will give liberally if they are properly approached by a solicitor. Therefore get busy. Xenia and Greene county must not fall down in this drive.

AIRPLANES START BACK

Washington, Feb. 3.—The airplane squadron which recently flew from San Diego to New York via the southern route, planned to start westward again today. The flyers will use the map information obtained on the original flight and the hope to reduce considerably the 45 hour actual flying time set in that journey.

SUNDAY WAS GREAT DAY AT FIRST CHURCH

Sunday, February 2, was a great day for First Methodist church. It was remarked that Evangelist Harney had not taken people with him but had tied them more closely to their task. The day opened with a large attendance at the Sunday School, the notable increase being in the adult departments. The school is under the direction of teachers who train the intellects and warm the hearts. At the morning preaching hour the great auditorium was filled. At this service a large class was received and children and adults were baptized. This was a beautiful and impressive sight to note; in many cases the entire family was received into the church. In the evening another large audience greeted the pastor, while others were at this service baptized and received into the church. In all 32 were baptized and 53 were enrolled as members of the church. Of those giving their names for First church only two were absent yesterday, one being prevented by illness.

INSTANTLY KILLED BY FALL FROM BUILDING

When he fell from the second story of a building he was assisting to raze, Marion Fields, a well known Wilmington man, was instantly killed in that city Monday morning. His neck was broken. Mr. Fields was working for his father-in-law, who held a contract for razing several buildings in the vicinity of the court house. He was a young man, and had been married only about a year. His parents, Mr. and Mrs. Milo Fields, live at Port William.

FALLS DOWN STAIRS AND IS BADLY INJURED

Mrs. Louise Kiernan fell headlong down a stairway at her home on West Second street, Monday morning, and was severely injured. Her physician has not yet determined whether there are any internal injuries. No bones were broken, but she was bruised and is suffering greatly from the shock. It is supposed that Mrs. Kiernan became dizzy at the top of the flight as she was about to descend. Her daughter-in-law Mrs. Harry Kiernan, saw her fall.

APPRAISMENT IS DECLARED EXCESSIVE

That the appraisement of \$280 an acre on the Joseph Shade farm in Bath township, as made by the jury in the Miami Conservancy condemnation suit against the property, was excessive, was held by Judge Kyle Monday morning.

Judge Kyle held that if Mr. Shade would agree to a remittitur of \$30 an acre, that he would uphold the verdict. Through his attorneys he refused to make this agreement, and the court set aside the verdict, sustaining the motion of the Conservancy jury that this be done on the grounds that the appraisement was excessive.

HALF OF WORKERS STRIKE

Lawrence, Mass., Feb. 3.—Not more than half of the thirty thousand textile operatives here went on strike today to enforce their demands for 54 hours wages for a 48 hour week. The workers who struck were mostly foreigners.

TWENTY YEARS AGO
A rumor from Akron has it that the National Liquor League plan to close up all the saloons in Akron, by paying saloon-keepers the revenue they would receive if they operated. The idea is to give to other cities an object lesson on the sufferings which will be entailed on municipalities by the closing of these places. The movement was started because of the recent agitation there by the ministers.

SO DECLARES ATTORNEY C. W. WHITMER, AFTER GIVING THIS FAMOUS FAMILY TONIC THE ACID TEST.

This well known and highly esteemed citizen, formerly for four terms Xenia's director of public service, has just given Nerv-Worth the following extraordinary endorsement, in simple and character it merits every reader's attention:

Sayre & Hemphill—Was completely run down and terribly nervous. Couldn't sleep. Would toss and turn most of the night. Had gas on my stomach and belched for quite some time after eating.

Have taken one bottle of Nerv-Worth and have been marvelously helped. Have not enjoyed sleep in six months as I do now. Have been prejudiced against medicines but I am now of different opinion. Nerv-Worth is more than medicine. It is a miracle. I cannot recommend it too highly. I feel like a different man.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil. You will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

Gold Once Little Valued.
Rev. Dr. W. E. Griffith says that it is historically true that in early Japan there were houses roofed with gold. For centuries, he says, gold had little more value in Japan than in South America when Balboa sought the Pacific. Even until 1853 gold was worth only four times as much as silver.

HIGHWAY ROBBERS
ARE CAUGHT BY
THE XENIA POLICE

Activities of the police nipped in the bud the series of robberies and attempted robberies that was started here when Officer Simms placed Lewis Overstreet, colored, 22, under arrest Saturday and Sunday, went to Wilmington where he secured Melvin Watson, colored, 20, who had been arrested by Sheriff Arthur of that place and held for the local authorities.

Sunday the men confessed to Chief Canaday and Officer Simms implication in the assault and attempted robbery of Isadore Hyman, son of Mr. and Mrs. L. S. Hyman, who was attacked near his home on East Market street, on the night of January 25, and also of Arthur Gray, colored, who was assaulted on East Church street with intent to rob. They also confessed to the assault and robbery of Harrison Shingledecker, from whom they secured \$4.50 on the same night. No money was taken in either of the other two

DAILY HEALTH TALKS

The Best Way to Treat Constipation

BY S. C. BABCOCK, M. D.

The medical books name many drugs that will move the bowels. The drug store shelves are loaded down with laxatives, purgatives and pills. The trouble with most of them is the after-effects. Constipated people know that pills work all right for a little while, but they soon lose their effect, and a change has to be made to something else. The constant taking of pills results in a form of bowel inactivity that is difficult to cure. The system becomes so accustomed to laxative drugs that the organs just won't work without them, and so the pill habit becomes as bad as constipation itself. Dr. Pierce, of Buffalo, N. Y., seems to me to have the right idea. He says the bowels should first be gently moved with Pierce's Pleasant Pellets, and in the meantime laxative foods only should be eaten. Figs, prunes, olive oil, spinach, bran, vegetables and fruits are fine for constipation. Chew every bite thoroughly, eat little meat, and be as active as possible. Now, doesn't that seem sensible? Pleasant Pellets will start the bowels working right; then it is up to you to keep them right by right eating. Try Pleasant Pellets for sick headache, coated tongue, biliousness, dizziness, torrid liver or to break up a cold. They are just fine!

Dr. Pierce's Anodyne Pile Ointment soothes, cools and heals piles in a most gratifying way. Perhaps there is no other remedy for this torturing trouble that relieves so surely and quickly. Dr. Pierce believes Anodyne Pile Ointment will overcome any case that can be overcome by medical treatment. Try it right now.

Dr. Pierce's Anurie Tablets are intended for people who suffer from kidney disorders—whose backs ache, and whose systems are overrun with uric acid. Nearly everybody has too much uric acid. Anurie Tablets dissolve uric acid quickly, as they are made double strength.

Mrs. Jones Tells How PEPSINCO Helped Her Stomach!

I just suffered everything. Nothing agreed with me at all. A few minutes after eating I had pain, sourness and as a rule would belch bad tasting stuff.

I tried doctors; I tried medicines; all without effect. Pepsinco was recommended. I honestly believe that I can thank Pepsinco for my good health to-day.

I can eat anything and I am without pain. I would suggest that if there is anything wrong with your stomach, that you go to any drug store and get a small package of Pepsinco.

The above is a testimonial from a party who followed the advice of a friend. Suppose you do the same.

cases, the robbers being frightened off on each occasion.

Both boys pleaded guilty to a charge of highway robbery before Police Judge E. Dawson Smith, Monday morning and upon waiving preliminary examination were bound over to the grand jury and their bond fixed at \$500 each. The culmination of the case reflects much credit on the police department and on Officer Simms.

On a charge of forgery, Edward Dickerson, colored, 19, was arrested by Officer Simms and in Police court Monday morning pleaded guilty, waived examination and was bound over to the grand jury under \$500 bond. Dickerson is alleged to have forged the name of Horace Garrett, employee of the Hoover & Allison mill, to an order which was supposed to grant him authority to collect Garrett's pay envelope, containing \$15.25. This is not the first time that Dickerson has been in trouble. With Overstreet, who is charged with highway robbery, Dickerson is alleged to have robbed the famous Cheap Store last July, at which time he was caught by Officer Simms.

The morning was unusually busy one in police court. Andy Day, white, was fined \$25 and costs and sentenced to 30 days in the work house for drunk and disorderly. Mayer Rosenthal, white, an umbrella fixer, was arrested for drunk and given \$5 and costs and ten days, all of which was suspended on condition he leave town.

MALIGNED 'MAUDE' SHOULD HAVE A LEATHER MEDAL.

The American army mule has been mentioned in the British war records, and honorably mentioned, too. His staying powers, his courage, his phlegmatic performance of duty, though stormed at with shot and shell, have all been commented upon.

There is an epidemic of awards for faithful service, as there should be, for this war has been characterized not by single conspicuous acts of bravery but by thousands of them. We honor our soldiers, our sailors, our officers, our privates, our civilians, our Boy Scouts, our airplanes, our guns, our horses—why not our mules? Why not give these sturdy defenders of their country's honor a decoration and a title worthy of the service they have performed? A leather medal, say, neatly stamped with a design of a lifted hind leg and hoof, and embellished with the motto, "Nobody shall pass," might be appropriate.

The mule has been derided too long. He is considered the acme of stubbornness, yet he shares that quality with the bravest men in the world, for at what point does courage become stubborn determination? Ask the Belgians, the French, our own braves of Chateau-Thierry.

The peace conference is to right many an ancient wrong. Perhaps it will rescue the noble mule from the stigma of that ignoble motto, "He, Haw," which loads him with undeserved derision, and bring him into his own, where all the grateful nations shall point to him with pride, and cry, "He Hauled!"

The British armies have been supplied with thousands of mules. It is now desired to distribute the surplus usefully among the civil population, but in England an "unaccountable prejudice" against them is reported.

The prejudice is perhaps natural, considering that the mule has long been a favorite theme for the thoughtless jokemakers. Even in some parts of the United States the notion persists that it is an obstinate and cantankerous beast, but a little experience with this most gentle, as most capable, of draft animals would surely correct the unjust impression.

There are said to be 10,000 mules at the remount stations in England, for which the army has no further use, but civilians are not inclined to buy them. The authorities are advertising the mule's strong points, its wonderful strength and endurance and its moderate appetite as compared to a horse, while "for every horse that goes sick less than half a mule is sick." But, so far, this publicity does not seem to be producing the desired impression. The farmers and other users of draft animals in England should consult the experience in the United States outside of the army before deciding hastily against the mule. There must be 2,000,000 mules in daily employment in this country, and their owners will declare unanimously that they are the best kind of investment.

REGIMENT CONTAINING MANY GREENE CO. BOYS IS NOW IN GERMANY

While the 330th Regiment, and other units of the Infantry of the 83rd division are now scheduled to be in Camp Sherman for early discharge, the 322nd Regiment of Field Artillery, which was also a part of the 83rd and contains many Greene County boys in its personnel, will not be home for some time yet.

Because the 83rd Division was used as a replacement division, many of its units were detached to some other combat division as they were needed and the division was pretty much split up on this account. The 322nd Field Artillery, was one of the units of the 83rd which was transferred and was attached to the 32nd division which is a regular army outfit, and is now in the army of occupation.

According to information written to his residence in this city, by Lawrence Manor, the 322nd is now located in the German village of Bruckroden, which is situated 20 miles north of Cologne, and 18 miles across the Rhine on German territory. There are a number of Greene County lads with the outfit, including Lawrence Manor, Lawrence Clemmer, Moudy Barnett, Raymond McKee and others.

THE LIFE THAT GIVES PLEASURE.

The craving for pleasure is inherent in every heart, and therefore it is a lawful desire. It shows that God desired to make life pleasant for us; for He would not have put the craving in our hearts without making provision for its gratification.

Perhaps the easiest way to get real pleasure out of life is to take pleasure in trying to give pleasure to others, or encouragement, or help of any kind to others. We are required to cherish a loving disposition, and that cannot be done effectively unless we try to show love. A smile, a cheery word, the "soft answer that turneth away wrath," the sympathy with the weaknesses and failures of others which will make us patient and gentle with them without any appearance of regarding them as more faulty than we are ourselves—such things tend to brighten other lives, but they will have an even more marked effect in brightening our own lives.

There is one source of real and lasting pleasure which most persons do not seem to have discovered. It is in the acquisition of knowledge. The great majority of people do not seem to care anything about knowledge unless it can be turned to account in some way for profit, or can yield some tangible benefit.

Those who seek to know for the joy of knowing can find great and increasing pleasure in learning. Knowledge enlarges a man's mental horizon.

THE PROMOTER'S WIFE

BY JANE PHELPS.

IN THE BEGINNING CHAPTER I.

I was born in a little mid-western town, and had lived there all my life. My home was a long, narrow, white building shaped a good deal like the toy Noah's ark they sell to amuse children. There was a small, unpretending entrance, which opened into a shallow hall. The interior was as unpretentious as the entrance, yet it was in every way comfortable.

The house was set almost in the center of a large lawn ("yard," we called it). In the season it was filled with flowers of all kinds, in not very symmetrical beds, and in borders along the walks that led both to the front and back door. Then there were flowering shrubs and bushes set down haphazard, and several large trees. When everything was in bloom it was a very attractive looking place. But in the late fall and winter when the wind whistled through the bare branches of the trees, stripped naked of their summer dress, the long, low, white house had rather a pathetic look. I hated the winter. It was always so unattractive in Huntington, where many of the houses were almost a replica of the one in which we lived, and where the streets so beautifully shaded in summer by the interlaced shade trees, were bleak and unattractive because of the bare trunks and branches of those same trees.

I used to think that there could be no other place in the world where the wind howled and groaned, as if in agony, as it did in Huntington. But as my experiences afield had been only to neighboring towns, I was perhaps incapable of judging. Yet now after years of city living I still shudder when I think of the way the wind whistled and moaned through the trees and shrubs in my old home.

Father kept a small store. We never knew what it was to really want for anything; yet mother counted every penny. I never had an allowance because there was only just so much, and nothing must be wasted. Yet as I look back it is the only criticism I would make of my father and mother. They brought me up without allowing me to handle a penny or to use my judgment in spending. Mother bought my clothes and we made them together. If I had any little extras, as I grew older, she always got them for me.

I sometimes read stories of girls who had an allowance that they were permitted to spend exactly as they chose. These stories always made me envious and I would wish I, too, might have money of my own to spend. Then I would weave dreams of the time when I would be married, and I like mother, would buy for the family. But strangely I never dreamed of any of the town boys as a possible husband. I had played and danced—gone to school, with them, and in a way was

"The Lucky Ones Are Those Who Happen to Fall in Love Again After Marriage!"

This is what Barbara Forbes said when she at last saw her husband for what he was: a visionary. Naturally with respect gone, love also went.

But Barbara was a good woman and longed ardently to fall in love with her husband again. She had heard of cases of a re-birth of love in marriage, after disillusionment. "Why can't I be one of the lucky ones?" she asked herself.

Barbara loved no other man; that was one favorable point. And another was that—like most wives—she saw, always, the little boy in her man. She could cry over the childhood photographs of Neil when, like most boys, he was always "getting into hot water"—always misunderstood!

She loved, too, the pictures of Neil in his early twenties—those years in which a young man is thrust out into the world to be man-handled until he makes good—while she, Barbara, was living the sheltered life of the home woman.

So, with these feelings toward her boy-man, it seems certain that love will come again to Barbara. But make sure of this by reading "The Promoter's Wife," which begins today in The Evening Gazette and tomorrow in The Morning Republican.

very fond of them, as one is in a small town where the boys and girls grow up together. But whenever I thought of marriage, it was not with one of them.

I was just twenty-two the summer that Neil Forbes came to visit his aunt. She lived next door to us, and I met Neil almost immediately. There is very little ceremony in a place like Huntington.

I was coming home from the store carrying a parcel for mother, when as I passed Mrs. Carter's gate she called to me:

"Come in, Bab, I want you to meet my nephew!" My real name was Barbara, Barbara Hill; but everyone called me "Bab."

"Neil, this is my neighbor, Barbara Hill," was the way she introduced us. A very common way in Huntington.

"I am glad to meet Miss Hill," a pleasant voice said, and as I laid my hand in the one extended I looked into the handsome face of the only young man I ever had seen who in any way fulfilled my girlish ideals of what a husband should be.

TEMPERANCE BILL COMES UP TUESDAY FOR HEARING IN HOUSE

The House temperance bill, will be before the committee on liquor traffic and temperance of the house in Columbus next Tuesday morning at 9 o'clock, when those opposed to the measure will be given a hearing. The bill as drafted excludes the sale of extracts, medicines or any article containing alcohol, by grocers, itinerant vendors and others.

This feature of the bill is being opposed vigorously by persons affected and the committee wants persons opposed to it to have a hearing. Representative W. B. Bryson of this city, is a member of the liquor traffic and temperance committee.

Everybody loves a baby and everybody wants a baby abundantly robust. There are many young children to whom

SCOTT'S EMULSION

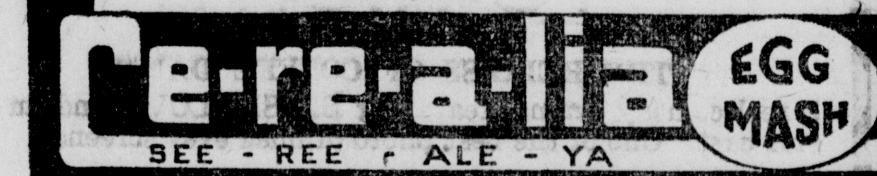

given in small portions at intervals during each day, would be an important factor in overcoming malnutrition and starting them well on the road to robustness. Every drop of Scott's is pure, rich nourishment, the kind that builds strength and promotes healthy growth. Children thrive on Scott's.

HE WOULD burn fuel that produced steam!—not hot water. Yet poultrymen feed their hens, which are nothing but engines, fuel that sustains them but does not make eggs. It takes food, rich in the trig elements to produce eggs. Cere-a-lia Egg Mash is a ration which, plus care and cleanliness, develops many eggs and sturdy hens. It is not the kind of a dry mash you get by throwing odds and ends together but an exact ration perfectly balanced by machinery. Never varies a particle in taste or in proportion of nutriment. EMPHATICALLY ASSERTS WORN OUT, LAGGING MEN CAN QUICKLY BECOME VIGOROUS AND FULL OF AMBITION
 7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man. So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drugist. This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks. No matter from what cause your nerves went back on you; no matter how run down, nervous or tired you are, get an original package Bio-feren at once at Sayre & Hill's. Take two tablets after a meal and one before bedtime—seven days for seven days—then one each until all are gone. Then if you still lack ambition, your nerves are not steady and you haven't the energy that red-blooded men possess, your chase money will be gladly returned. Note to Physicians: There is secret about the formula of Bio-feren it is printed on every package. It is: Lecithin, Calcium Glycophosphate, Iron, Peptonate, Manganese, Potassium, Etc. Nux Vom Powdered, Gentian, Phenolphthalein, Capsicum, Kola.

TRIBUTE TO PHILIP LAUGHEAD PUBLISHED IN NEW YORK PAPER

In the motion picture feature department, "In and Out of Focus," edited by Louella O. Parsons, in the New York Morning Telegraph, was the following tribute to Philip Laughead, known in the profession as Phil Lang, who was buried here Thursday.

"Philip Lang died at his home Friday night after two days' illness with pneumonia. Any one who ever heard of the Kalem Company has heard of Philip Lang, who wielded the destinies of the scenario department of that company for many years. In recognition of Mr. Lang's ability he was lately made vice president of Kalem and occupied that position until the company ceased to be an active producing organ.

Philip Lang did as much to develop the talent of budding playwrights as any man in the picture business. Instead of sending their wares with the usual editorial rejection, a cold printed slip, he would write this Kalem clientele a personal letter explaining why the scenario was unsuitable for production. A clever scenario writer himself, Mr. Lang had a keen sense of the dramatic, and he could immediately recognize in a scenario whether or not it was picture timber.

"At the time of his death, Mr. Lang occupied the position of scenario editor of the Vitaphone company. He was only thirty-two years old and was born in Xenia, Ohio. A brother W. B. Lang, of Dayton, arrived yesterday to make arrangements for the funeral which will probably be held at the Campbell Funeral Church, Burial will be at Xenia, where Mr. Lang's mother resides.

"Mr. Lang was a life member and one of the board of governors of the Greenwood Club."

ANTIOCH GIRLS BEAT SPRINGFIELD TEAM

Antioch girls basketball teams had things their own way at Springfield Saturday night, when both the first and second teams won from the first and second teams of the Springfield Y. W. C. A. on the Home City court.

The first victory was by the score of 25-13 with Miss Adams starring for the Yellow Springs girls. The second team defeated the Springfield second string sextette 12-7 in the second contest. The games were just stepping stones for the Antioch girls have been going at a rapid cadence all season.

APPEAL MADE FOR READING MATTER FOR PENITENTIARY

The value of magazines and good reading matter in the work of penitentiary reformation and a direct appeal for such reading matter, is contained in a letter received by this paper from Chaplain T. O. Reed, of the State Penitentiary at Columbus.

According to Mr. Reed, under the present plan of penitentiary government an effort is made to send the men and women out into the world better than they came in. It is explained that no better results can be obtained toward this purpose than by keeping them supplied with good reading matter, such as magazines and other material along that line.

Chaplain Reed is therefore making an earnest appeal to anyone having magazines or illustrated papers or anything of like nature, to box or barrel them up and send them to the State Penitentiary for the prisoners to read. He offers to pay all freight charges, but no express charges.

BOY SCOUTS MEDAL GIVEN LEIGH NISBET FOR SAVING LIFE

Awarded a silver medal from the Boy Scouts of America for "Saving life with considerable risk to self" is the honor which has been bestowed upon Lieutenant Leigh M. Nisbet, Assistant Scout Master of Troop No. 1, B. S. of A., here, and who was but recently honorably discharged from the service.

The medal, beautifully embossed in silver and pinned on a blue ribbon, has just arrived and bears with it a highly complimentary letter from James E. West, Chief Scout Executive and Secretary of the National Court of Honor.

The act by which Lieutenant Nisbet won the medal was performed last Decoration Day at New Concord, O. when he was a student at Muskingum College, and managed to save a boy from drowning when it was thought he had gone down for the last time. The boy, Wayne Vessels, of New Concord, was also a student at the college, and on decoration Day had attempted to swim across the lake at the college. When part way across he gave out

and went down his cries attracting the attention of onlookers.

Mr. Nisbet heard the cries of the lad and swam to his aid, grappling him under nine feet of water and bringing him to the surface, where the pair were picked up and taken ashore. The rescue was made at considerable risk to himself and this was taken into consideration when the medal was awarded.

The medal is the first of its kind ever to have been won and awarded to a local Scout. In the letter accompanying it, Secretary West urged the value of the medal not for its intrinsic value but for what it stands for and he emphasized the meaning of the act by which the local Scout won the medal. Mr. West also conveyed the congratulations of brother Scouts at Headquarters to the local Scout and heartily expressed their pride in him.

A similar medal was awarded recently to Robert Ramey of Cincinnati, which is only the second to be awarded there in five years. The medals for bravery are of three kinds: bronze for saving life, silver for saving life at considerable risk to self, and gold for saving life with the highest possible risk.

MRS. HERMAN FINLEY DIES SUNDAY MORNING

After months of suffering from a lingering malady, Mrs. Della L. Finley, widow of Herman Finley, died at her home, 231 East Main street shortly before 5 o'clock Sunday afternoon.

Mrs. Finley underwent an operation last summer for the malady from which she was suffering and she never regained her strength following it. She was 45 years of age last July. Surviving her are five children: Francis, Mary, Earl, Josephine and Louise, and a granddaughter, Mrs. Ethel Tucker of Columbus, who nursed her during her illness. She leaves two sisters and a brother: Mrs. Charles Winkle of Dayton; Mrs. Katherine Kenner of Trotwood and Charles Henn of Brookville.

Funeral arrangements have not been made.

Philosophy: make a great deal of the mystery of life, but when you've got it all summed up, it turns out to be nothing but an opportunity to be a friend to somebody else.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backache or Bladder bothers — Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poison from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

THEATERS

BIJOU

Were a consensus of public opinion taken in Xenia it would no doubt place that exceedingly brilliant and well-trained pair, Madge Kennedy and Tom Moore, among the highest of constellations in the moving picture firmament. Locally they are as popular as the flowers in May and for this reason much interest and joy of anticipation attaches to their coming to the Bijou Tuesday in the Goldwyn picture "The Kingdom of Youth."

Such a name did Tom Moore make for himself in support of Miss Kennedy, that Goldwyns have already begun to star him alone, but it is his best work that is done in support of this clever star. The pair are undoubtedly the most adorable on the screen. In the new picture they are husband and wife, jealous and quarrelsome, but husband and wife none the less and before the five reels are up they are as happy a married couple as ever existed outside of a fairy tale.

ORPHIUM

Pretty Gladys Leslie, has a versatile part in the Vitagraph picture "Wild Primrose," a story of a rough diamond, who was not as rough as she had painted herself, which appears at the Orphium Theater Tuesday.

From the role of a refined girl of society to that of a wild and untamed mountain girl and back again to her original self, is the jump Miss Leslie takes in her newest picture. She is very well supported by Vitagraph with Richard Bartleson, playing the lead opposite her, and such others as Eulalie Jensen, Claude Gillingwater, Ann Warrington, Charles Kent, Arthur Lewis and Rigelow Cooper, are in the support.

WHY DO WOMEN SUFFER

When There is Such a Remedy for Their Ills as Lydia E. Pinkham's Vegetable Compound?

Mishawaka, Ind.—"I had such a severe female weakness that I could not do my work and I could not get anything to relieve me. A physician treated me, but it did no good. I had been in this condition for three months when I began taking Lydia E. Pinkham's Vegetable Compound (tablet form) and it cured me. I keep house and am able to do my work now. I certainly praise your medicine."—Mrs. SUDA OLDHAM, 543 West Second Street, Mishawaka, Ind.

Women who suffer from such ailments should not continue to drag around and do their work under such conditions, but profit by the experience of Mrs. Oldham and thousands of others who have tried this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and found relief from such suffering. If complications exist, write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in advising women on this subject is at your service.

NEURALGIC PAINS

Give Way to Soothing Hamlin's Wizard Oil

Hamlin's Wizard Oil is a safe and effective treatment for headache and neuralgia. Rubbed in where the pain is, it acts as a tonic to the tortured nerves and almost invariably brings quick relief.

Its healing, antiseptic qualities can always be relied upon to prevent infection, or other serious results, from sprains, bruises, cuts, burns, bites and stings. Just as good, too, for sore feet, stiff neck, frost bites, cold sores and canker sores.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

the second of February in the year of Our Lord, 1919, Sunday, it behooved his lordship, H. Groundhog, to protrude from his place of hibernation and deliver his annual prophecy on the coming climate. Under the circumstances, the winter being any one, than this, the wise ones would take a squirt at the sun Sunday and announce six weeks more of winter, hence back to their firesides.

But this won't go this year. The ground hog having delivered his prophecy of six weeks more of it presented a problem as to whether the six weeks more will be winter like we have been having or winter like we used to have. It really hasn't been winter at all yet and if the ground hog is right in his prophecy of more winter why paradoxically we will continue to have spring-like balm.

Old John Groundhog has been fooling the public long enough but we are laying a bet that the weather was too much for him to define when he stuck out his head Sunday.
